CORPUS CHRISTI METROPOLITAN PLANNING ORGANIZATION

Planning for Mobility, Safety, and Accessibility for Everyone

THE TRANSPORTATION PLANNING PROCESS

It is a Corpus Christi Metropolitan Planning Organization (MPO) policy to support and encourage early and continuous public participation and input to the planning process and to adhere to the principles of Environmental Justice and Title VI of the Civil Rights Act as part of the metropolitan 3-C "continuing, comprehensive, and cooperative" planning process relating to transportation systems and facilities.

WHAT DOES THE MPO DO?

The MPO carries out three major work activities to meet specific federal requirements:

*Develop and maintain the **Metropolitan Transportation Plan (MTP)**. The long-range plan which explains the MPO's transportation policies and goals, estimates future needs and resources, and lays out a detailed program for preserving and expanding the transportation system over a horizon of 20 or more years.*

*Develop and maintain the **Transportation Improvement Program (TIP)**. The short-range plan list of projects for which federal funds are anticipated. The list of projects is multi-modal and includes highway and public transit projects, as well as bicycle, pedestrian, and freight-related projects.*

*The development and biennial adoption of the **Unified Planning Work Program (UPWP)** which is a comprehensive one-year planning program that outlines and coordinates the individual transportation planning activities of all agencies in the area.*

Without these products, the MPO would lose its eligibility for federal transportation funds for the metropolitan area.
